WORK EXPERIENCE

Developer Zoho Corporation

07/2022 - Present

Guduvancheri, Chengalpattu

Achievements/Tasks

- Enhanced product quality and streamlined feature delivery, resulting in improved customer satisfaction.
- Built and optimized complex database queries using Java and PostgreSQL, reducing key query response times by up to 30%.
- Collaborated with cross-functional teams to scale systems, increase uptime, and drive performance improvements.
- Led automation and modernization initiatives, contributing to product stability and faster release cycles.

Summer Intern Zoho

03/2022 - 04/2022

Guduvancheri, Chengalpattu

Project/Tasks

- Developed a Product Management application utilizing Java MVC architecture for scalable backend development and efficient API integration.
- Implemented product recommendation modules, dynamic discount engine, and user rating system, leveraging SQL queries and code optimization.
- Synthesized business requirements from stakeholders, translating them into robust backend features aligned with RESTful APIs and database management best practices.

Smart India Hackathon Stock Market Prediction

01/2022 - 01/2022

About/Technologies

- Implement a stock market prediction model using Long Short-Term Memory (LSTM) networks.
- Achieving a 90% success rate in forecasting stock market trends.

Grab Scrap IBM - Wit Hackathon

04/2021 - 06/2021

About/Technologies

- Grab Scrap is about the concept of Circular Economy,
- NodeJs, Google API's - Sheets And Drive, IBM - Login API,
- Complete working model and hosted on a public server.

EDUCATION

Computer Science And Engineering RMK College Of Engineering And Technology

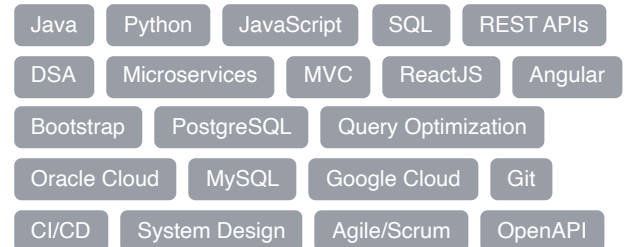

06/2019 - 04/2023

8.5

Achievements

- Research Paper Repository
- Online Land Registration

SKILLS

ACHIEVEMENTS

TCS Code Vita (08/2020 - 08/2020)

One among the 3 from 2nd year in RMK Group

International Conference (03/2020 - 03/2020)

Facial expression Recognition system using multimodal sensors

PERSONAL PROJECTS

Research Paper Repository (11/2022 - 01/2022)

- Built a Django-based system to organize and search research papers, supporting efficient knowledge sharing.

Lambs And Tiger (05/2020 - 06/2020)

- Created a Pygame-based digital adaptation of an ancient strategy game, focusing on OOP, game logic, and user interface.

Online Land Registration (01/2023 - 02/2023)

- Designed a web application with JSP & Servlets for digitized land registration workflows; enhanced record transparency and access.

CERTIFICATES

Oracle Certified Foundations Associate (12/2021 - 12/2021)

Oracle Cloud Infrastructure Foundations 2021 Certified Associate

Google Cloud Associate (10/2021 - 01/2022)

Google Cloud API's and Project Based Services

Other Certificates

PROFILE

Skillrack (02/2020 - Present)

Solved 5000+ programs and achieved 65+ certificates

Hacker Rank (06/2021 - Present)

Hosted Contest and achieved 4+ badges and 5+ certificates

Leetcode (03/2021 - Present)

Solved 330+ programs and attended 10+ contests

Code Force (01/2022 - Present)

Attend more than 10 contest.
